

Financial Policy

Payment for all treatment is due at time of service. As a courtesy to our patients with dental insurance, we will file a claim for your treatment with your insurance carrier. Due to the unpredictable coverage with dental insurance carriers, 50% of the cost of your procedure will be due at the time of service.

Payment Options

- 1) We accept all major credit cards: Visa, Master Card, American Express and Discover.
- 2) For those patients wishing to make payments on their treatment, our office does participate with Care Credit/GE Money. We are happy to pre-approve you for this service. We participate with their 6, 12, and 24 month payment plans.
